

APCC for education

Regarding the videography assignment.

APCC for education is a new project of APCC launched on 2021. The main objectives are to help to promote international understanding in the field of education and to give as many opportunities to children via various means.

We have already uploaded educational video materials in the website from few selected countries/regions. Website URL: <https://apcc-edu.com>

We would like 2023 JAs to be a part of this project. Therefore, we would like all 4 JAs to shoot 2 videos on the following theme.

1. All 4 JAs must shoot '**Self Introduction**' theme video and submit it to your Liaison officer. If the submitted videos meet the guidelines, APCC will upload them to the 'APCC for education' website before July.

2. Among the 4 videos listed below, each JA will be required to shoot a video in only one theme. The theme will be assigned to each JA by your Liaison Officer. Please submit your video to your Liaison officer.

- **Favorite snack theme video**
- **Home theme video**
- **School uniform theme video**
- **Mathematics and Science text book theme video**

Please follow your Liaison officer's instructions for submission deadlines and instructions on how to submit.
