

APCC for education

Regarding the videography assignment.

APCC for education is a new project of APCC launched on 2021. The main objectives are to help to promote international understanding in the field of education and to give as many opportunities to children via various means.

We have already uploaded educational video materials in the website from few selected countries/regions. Website URL: <https://apcc-edu.com>

We would like 2023 JAs to be a part of this project. Therefore, we would like all 4 JAs to shoot 2 videos on the following theme.

1. All 4 JAs must shoot the **'Self Introduction' theme video** and submit it to LO and LO must submit it to APCC **by May 30**. If the submitted videos meet the guidelines, APCC will upload them to the 'APCC for education' website before July.

2. Among the 4 videos listed below, each JA will be required to shoot a video in only one theme. Liaison officer has to assign one theme to each JA. Please collect all the videos from JAs and submit to APCC **by June 30**.

- **Favorite snack theme video**
- **Home theme video**
- **School uniform theme video**
- **Mathematics and Science text book theme video**

Please note that you must upload all videos to your Google Drive and share them with the 'APCC for education' email address.
