

APCC for education

Regarding the videography assignment.

APCC for education is a new project of APCC launched on 2021. The main objectives are to help to promote international understanding in the field of education and to give as many opportunities to children via various means.

We have uploaded videos on different themes from different countries as well as videos from 2023 JAs on the website.

Website URL: <https://apcc-edu.com>

We would like 2024 JAs to be a part of the video project.

Therefore, we would like all 4 JAs to shoot 2 videos on the following theme.

1. Self-Introduction

Each 4 JAs must shoot 'Self Introduction' theme video and submit it to your Liaison officer. If the submitted videos meet the guidelines, APCC will upload them to the 'APCC for education' website before July.

2. Popular Game

For the 'Popular Game' video, all 4 JA will be required to shoot a video together. Your Liaison Officer will arrange to shoot this video so please follow their instruction.

Please follow your Liaison officer's instructions for submission deadlines and instructions on how to submit.
