

# APCC for education

## Regarding the videography assignment

APCC for education is a new project of APCC launched on 2021. The main objectives are to help to promote international understanding in the field of education and to give as many opportunities to children via various means.

We have uploaded videos on different themes from different countries as well as videos from 2023 JAs on the website.

Website URL: <https://apcc-edu.com>

We would like 2024 JAs to be a part of the video project. Therefore, we would like all 4 JAs to shoot 2 videos on the following theme.

### 1. Self-Introduction

All 4 JAs must shoot the 'Self Introduction' theme video and submit it to LO and then LO must submit it to APCC **by April 30**. If the submitted videos meet the guidelines, APCC will upload them to the 'APCC for education' website before July.

### 2. Popular Game

For the 'Popular Game' video, ~~all 4 JA will be required to shoot a video together~~. We would like to ask each Liaison officer to arrange to shoot this video. You can use the JAs training time to shoot this video.

Please choose one game that is popular in your country/region or usually played by students. JA must explain the game rule before playing. If you would like to include more children apart from 4 JAs, then it's Ok. But please let everyone know that the video will be uploaded in the 'APCC for education' website.

LO is responsible to submit both videos, Self-introduction of all 4 JAs and 'Traditional or Famous Game' videos to APCC by **April 30**. Please ask JAs to follow guideline to shoot the videos.

Please note that you must upload all videos to your Google Drive and share them with the 'APCC for education' email address.
